

**Nguyễn Thị Linh Kiều** was born in 1992. She is in grade 10 at Chợ Lách A Public High School - Bến Tre. Her family is very poor and does not have land. Embroidery piecework is their only source of daily income. When Linh Kiều is not studying, she helps her mother with needlework. Her parents do not have resources to keep Kiều in school and pay for higher education. In grade 7, Linh Kiều had to take a one-year leave of absence because her parents could not afford school fees. A Savice scholarship means a lot to her because she has been able to continue schooling without interruption. The scholarship has also given Linh Kiều the motivation to work hard in making her dreams a reality. She wishes to become a teacher to help poor students like herself.
