

Huỳnh Trung Kiên

Grade 9 student - Chợ Lách Public High School - Bến Tre. Trung Kiên is one of five siblings supported by meagre incomes from livestock and their parents' work as hired casual labourers. When Trung Kiên is not in school, she helps her parents take care of livestock and cuts roadside grass for feed. Even without extra studying time, she still earns excellent grades. Trung Kiên accepts her family's poverty always with a cheerful smile. She continues to strive in her studies for better days. Kiên's dream is to become an engineer. A scholarship from SAVICE inspires her to make every effort to be a better student.
