

## Nguyễn Trần Phương Uyên

Phương Uyên's family lives in a home constructed from scrap metal and scavenged wood (see last page for picture). Although impoverished, Phương Uyên's parents do all they can to keep their children in school. Phương Uyên and her siblings are well-behaved, are good students and help their parents around the house whenever they can.

Phương Uyên is pictured here doing her school work. Behind her is the bed she shares with her siblings and mother. Also pictured is the family's goat pen and Phương Uyên helping her mother to feed the goat.
